## CD-ROM "PRO BUSINESS ROMANIA 2007 "

7th edition

Romanian and ENGLISH

### ON-LINE Order

- Database having **more than 11.500 Romanian companies** (TOP companies ranked by the CCIR; Participants in fairs and exhibitions; Members of the chambers of commerce in Romania)
- **Allows 16 single/multiple selection criteria** based on a powerful search engine
- **Export of selected information in database format** (Microsoft Excel, Access), HTML, Microsoft Word, Txt
- **English and Romanian version**  
Addresses of County Chambers of Commerce and Industry from Romania

The "PRO BUSINESS ROMANIA 2007" CD contains a database having **more than 11.500 Romanian companies** (TOP companies ranked by the CCIR; Participants in fairs and exhibitions; Members of the chambers of commerce in Romania)

**Main selection criteria** based on a powerful search engine are: company's name; legal form; town; line of business-NACE code; products-HS code; turnover; gross profit; equity; number of employees; key words a.s.o.

**Main information on each company profile** : company's name, VAT code, address, phones, fax, e-mail, web-site, contact person, line of business, goods, services, outlets for import/export, turnover, gross profit, equity, number of employees, financial information based on fiscal year 2005 balance sheet.

#### How can you buy it?

1. **on-line order** ([click here](#))
2. By order sent through fax +4021-319.01.56 or e-mail: [ddab@ccir.ro](mailto:ddab@ccir.ro)

#### How can you pay it?

- Via bank transfer, in CCIR's account, no. **RO82 INGB 0001 0081 5878 0710** opened at **ING BANK Bucharest-Opera Branch**; **SWIFT**: INGBROBU ; **BANK CODE**: 606410008; **CCIR's fiscal code is RO 2842250** ;

- With cash at CCIR's pay office, 4<sup>th</sup> floor, Tronson III, 2<sup>nd</sup> Octavian Goga Blvd., 3<sup>rd</sup> district, Bucharest, ROMANIA.

To purchase The "Pro Business Romania 2007", CD-ROM ***please sent a copy of your payment document*** to fax: +4021-319.01.56. The CD-ROM will be sent via postal services within 3days since we receive your order and a copy of the payment document.

**Titu VLADUT**, Commercial Director  
**Mircea ARANCUTEAN**, Head of Sales  
Department

**Main Line of Business by NACE Classification:**  
*2513 Manufacture of other rubber products*

**Business Offer:**

S.C. ARTEGO S.A. is a private company and the most important producer of technical rubber products in Romania, our products being used in various fields of industry such as mining, stone quarries, the cement industry, etc. The conveyor belts represents 85% of the total production of the company, the rubber sheets and the matting are 8%, the gaskets are 3.5% and the rest up to 100% is represented by other activities.

The types of belts that can be manufactured varies from belts with textile insertion (manufactured according to DIN 22102/1-91, type X,W,Z,Y) to steel cord conveyor belts according DIN 22131-type W, X, Y,K (with burning characteristics of DIN 22103 and DIN 22104 antistatic and flame resistant). Conveyor belts type E (antistatic), K (antistatic and hard inflammable covers), S(antistatic and flame resistant belt), T(1300C temperature resistant), G(oil resistant), grip top or Chevron belts also belong to our range of products (about 13500t/year).

The production capacity of technical rubber sheets and mats is of about 2500 t/year and they are manufactured in a wide range of forms and qualities. The main types of rubber sheets and mats manufactured can have sides either smooth/smooth, smooth/impression or impression/impression.

Among the qualities of the rubber sheets and mats, we can count:

- oil resistant – BS 2751:1990 (based on Nitrilic rubber);
- flame resistant – BS 2752:1982 (based on polychloroprene rubber);
- temperature resistant – BS 6014:1980 (based on ethylene propilenic rubber);
- mechanical resistance – BS 1154:1986 (based on natural rubber)
- electrical safety – BS 921:1976

35% of the total production of belts is exported to U.K., Italy, The Netherlands, Spain, The UAE, Germany, Finland, France, Norway, Denmark.

The pressed gaskets have a capacity of 2000 to/year. We can manufacture from the simplest gaskets to the most complicated ones, with or without reinforcement, clothed with rubber fabrics with general use rubber mixture (SBR, NR), oil resistant (NBR), ozone resistant and medium oil resistant (with chloroprene), ozone resistant (EPDM), etc.

**Gheorghe NEGREA**, General Manager

**Ionel POHRIB**, Second Line Manager

**Main Line of Business by NACE Classification:**  
*1520 Processing and preserving of fish and fish products*

### **Business Offer:**

The policy of the company is to produce in Lohn system, in own-brand (trademark) upon request, to all of the interested local customers or from abroad.

DANUBIU RO 2002 processes fish cans of different sizes (starting from 120g to 170g upon demand) and different types of fishes: sardines, sprats, mackerels, herrings, carps, breams or others types of fish. At present, the range of products counts around 25 different types, packed in hansa and dingley aluminum cans. All products are 100% natural, with no supplementary food additives and the cans are equipped with easy-opening lids.

All the products produced by DANUBIU RO 2002 are high quality products at a suitable price.

As a matter of fact, quality is the strongest feature of the products manufactured under the trademark "MADE IN JURILOVCA". We are pretty much aware of the fact that we need to produce only quality products if we want to be competitive on the external and internal market. According to the laws of the European Union, DANUBIU RO 2002 has obtained all the needed certificates: HACCP, ISO 9001:2000 and ISO 22000:2005, all from the prestigious TUV NORD CERT Germany. More of that, the quality of our products has been once more proven by the Green Point certification, emitted by the Costumer Protection Agency.

**Main Line of Business by NACE Classification:**  
*1520 Processing and preserving of fish and fish products*

**Business Offer:**

The policy of the company is to produce in Lohn system, in own-brand (trademark) upon request, to all of the interested local customers or from abroad.

At the present time the product portfolio of Ecofish gathers around 100 different products, delivered under the form of fish salads, fish roe salads, marinated, smoked, specialties, and frozen products.

The fish salads are packed in 200g transparent heat-sealed casseroles that confers the product a supplementary safety (the costumers sees the product he buys and the heat-sealing insures the protection while transportation as well as a perfect closure against air). Fish roe salads have the the same packing system. Marinated products bring in front of the costumers recipes that have as raw material the ocean fish as mackerel, herring, sprat packed on customer's request in casseroles and little buckets. The smoked products include both Romanian like carp stockfish and international products smoked salmon, herring, sprat, mackerel packed in vacuumed bags wich maintain the freshness of the product for a very long time. Frozen products, packed in vacuumed bags, heat-contractible or simple offers the costumers diversified products (whole, fillet, eviscerated fish or sea fruit). As an absolutely new product on Romanian market, Ecofish launched the fish meat sausages packed in vacuumed bags which were noticed also by the Belgian fish fair organizers of the "European Sea Food Exhibition" from Bruxelles 2006, the biggest European fair of fish and sea fruits industry. They proposed these products to be in the finals of the contest Prix d'Elite, side by side with the products of the largest companies from the entire world.

All the products produced by Ecofish are hight quality products at a suitable price.

As a matter of fact, quality is the strongest feature of the products manufactured under the trademark "MADE IN JURILOVCA". According to the lows of the European Union, ECOFISH has obtained all the needed certificates: HACCP, ISO 9001:2000 and ISO 22000:2005, all from the prestigious TUV NORD CERT Germany. More of that, the quality of our products has been once more proven by Green Point certification, emitted by the Costumer Protection Agency.

### ***Business Offer:***

The German-Romania joint venture RESITA-RENK S.A., was set up in 1973, being the first joint venture of the production field in Romania.

The endowing of the factory makes possible the design and the execution of the reduction gear boxes for:

- the marine industrie with power between 100 ÷ 6.500 kW, classical and planetary, for marine and river ships, for the propulsion of the ships (reversers and non-reversers), auxiliary on the ship (for electric power generators, pumps, etc.);
- other important industrial domains: the metallurgic industry, the iron steel industry, the cement industry, the power industry, the mine working industry, the chemistry and petrochemical industry, the urban and railway conveyance, the rubber and plastic industry.

RESITA-RENK S.A. manufactures spare parts for all the delivered reduction gear boxes and after the customer's documentation.

In 30 years of activity, RRR has delivered more than 7.000 reduction gear boxes, their conception and execution having as basis the licenser's know-how – RENK A.G. company from Germany – and the experience gained by the Romanian staff.

For its products, RRR provides services in the whole world in cooperation with RENK Germany.

**Business Offer:**

Research, design and manufacture of admixtures, greases, processing fluids, lubricating oils, corrosion inhibitors and auxiliary organic products, pour point depressants oils, antiscaling products, flow improvers for asphaltenic crudes.

Services provider: consultancy, technical assistance, expertise in the field of additives and lubricants, reservoir engineering studies.

ICERP owns facilities to produce over 20000 tones/year lubricants and additives as:

Multigrade and monograde engine oils of all currently required performance grades

Automotive gear lubricants of API GL3, GL4 and GL5 quality

Industrial products:

hydraulic fluids, HL,  
HM and HV type;  
gear oils, TIN and TIN  
EPS type;  
compressor oil, K and  
KA type;  
bearings oils;  
slide rail oils;  
turbine oils.

Greases based on Li, Ca, LiCa soaps or clay as thickeners and with various EP addition levels

Anticorrosive preservation products

Metalworking fluids

Corrosion inhibitor additives

Flow improvers additives for paraffinic and asphaltenic crudes.

All these products are manufactured on the basis of its own research and licenses protected by over 150 patents issued to ICERP. For more details, please check [www.icerp.ro](http://www.icerp.ro).

### **Contact Person(s):**

**Mihail BARLADEANU**, Director-General

**Main Line of Business by NACE Classification:**  
*2840 Forging, pressing, stamping and roll-forming  
of metal; powder metallurgy*

### **Business Offer:**

Our company Aviation Metallurgy Enterprise - METAV SA (in short: IMA-METAV SA) is a Society having as scope of activities including the production of the main products mentioned below:

- Conventional and investment castings
- Precision forgings
- Wheels and braking systems for aircrafts and tanks

Following a diversification politics, we deliver bars and blocks made in high alloyed steels and super alloys with a technology of vacuum induction melting and vacuum re-melting .

Among the commonly produced steel grade we mention:

- stainless and refractory steels : W1.4541, W1.4571,316,314,304,W1.4401, MARAGING, W1.4841
- high alloyed tool steels : W85, 57VMoCrNi7, MoWCr53, MoWCr50-13, VSCrW20, MoVCr30
- high speed steels: RP3, RP5
- Ni base super alloys: INCONEL 625, INCONEL X - 750, INCALLOY 901.

Also, we can produce other special steels types according to the technical specifications placed to our disposal by the beneficiary.

The production technology of these materials consists of:

- vacuum melting followed by the casting of O220 x 2800mm (max. 800 kg) electrodes;
- vacuum electro-re-melting of the electrodes in order to obtain O 280 or O380 mm (max. 800 kg) ingots;
- forging the ingots into O 80 - O 200 mm or o80 - o 200 mm bars, with a maximum length of 6000 mm.

Also, our society has all necessary means to check the quality and characterize the materials: chemical analysis, microscopy and macroscopy, room and high temperature mechanical testing, nondestructive control.

*1822 Manufacture of other outerwear*

### ***Business Offer:***

We are producing and exporting men suits, jackets and outerwear (coats, car coats). A special item is the washed jacket which we produce and export to Germany on a regular basis.

Our company achieved the capability to offer European quality at a correct price and at the right delivery time for all the production systems: CM, CMT or full export.

We also developed the technical support for our clients, so that the side costs can be avoided doing business with us.

*1822 Manufacture of other outerwear*

### ***Business Offer:***

Piticot Prod is a Romanian company, manufacturer of head coverings such as: hats, caps and other items for boys and girls with ages between 1 to 5 years. We have each year four collections : spring, summer, autumn and winter, and each one contains new models.

For example, you can see our winter collection at [www.piticotprod.ro](http://www.piticotprod.ro).

At present time we are producing 2008 spring collection – which contains more than 30 items – including 12 new models.

We are very well known on Romanian market, but considering the new European Community Market we would be very happy to meet new foreign partners and establish with them a good co-operation in order to sell (export) our products.

We hope that you consider our offer of interest for your company.

We kindly thank you in advance for your prompt answer and remain at your disposal for further details.

We are represented in all major industrial nations of the world and have succeeded in establishing solid market positions in Europe, Asia and the USA. We have created a worldwide network of offices to pave your way into any market.

Auditing is one of the essential services Roedl & Partner offers. It comprises comprehensive services, tailored to your needs and to the market situation. We are able to audit in accordance with International Standards in Auditing (ISA, US-GAAS) your financial statements prepared according to local accounting principles or IAS, US-GAAP, HGB. In addition, we support you in converting your annual financial statements prepared in accordance with local accounting regulations to international accounting principles.

We save your costs and help you to focus on your business by offering professional accounting and payroll services in outsourcing.

Furthermore, we support you with comprehensive tax consulting and tax planning. Both are key elements of Roedl & Partner's range of services.

Our lawyers interact with our auditors, tax consultants and business consultants and thus achieve the quality you expect from us when solving complex problems.

We offer expert quality and individualized service. Our goal is to be your first-choice partner, just as you are ours.

### **Business Offer:**

ROMFRACHT is a freight forwarding company established in 1996. Since then we have grown and improved both quantitatively and qualitatively. We have expended our services in the field of international transport as well as on the national market of logistic services and inland distribution. Our excellence is due to our dedicated operation team.

We can divide our range of services as follows:

1.Road transportation: - Our road fleet can perform international transportation, FTL or groupage for general cargo, ADR or refrigerated cargo. We are specialized in groupage from: - Benelux, UK, Ireland and Scandinavian countries: 3 departures per week; - Portugal, Spain, Gibraltar: one departure per week; - France : two departures per week; - Germany : 2 departures per week.

2.Air transportation: - For sensitive cargo that requires urgent service we can arrange to ship it by air to any worldwide destination – export and import. All necessary services by air will be the same as services by sea and will be provided as required.

3.Sea transportation: - Agreements with renowned shipping lines allow our sea freight experts to offer you weekly departure to all international seaports FCL, and through our arrangements with our reliable agents we can always provide LCL services to USA, South America and Far East.

4.Logistic & distribution & custom services: - Through our new terminal, close to highway to Constanta we can offer you handling services, storage facilities, as well as inland distribution throughout Romania. At our terminal we can offer you custom services for the crossborder cargo.

We are looking forward to do business with you !

**Business Offer:**

TOPEX moderates the telecommunication market and it aims to create intelligent solutions for the clients needs, to develop sustained efforts for the partners portfolio, to become leader for the European market using innovative services and products and to build a powerful distribution network.

TOPEX is a Romanian company which produces, integrates and distributes telecom equipments. With its current products, TOPEX can deliver solutions that meet telecom network requirements of service providers, and IT integrators around the globe.

It develops and offers telecommunication products and solutions, value-added services with particular expertise in IP-based technologies.

The company has over 17 years of experience in research, development and manufacture of both civil and military telecommunication devices.

Since its foundation in 1990, the company has experienced continuous growth.

It started with PBX products & associated services being recognized at present as a VoIP and NGN solution provider.

TOPEX has become the main IT&C solution provider for both companies and telecommunication solutions providers and operators from Romania. TOPEX is represented both in Romania and abroad through an extensive distribution network.

Having its own R&D department, the company has been permanently in line with the evolution of technology, many of the TOPEX solutions being among the first to offer new capabilities.

TOPEX offers profitable and practical solutions: the entire range of equipments is very easy to customize and enhance.

The high flexibility for their products and services helped TOPEX to strengthen its market position and to develop products suitable for Telecommunication market demands.
